# INDEX TO VOLUME 49

## JANUARY THROUGH JUNE 1965

As you know, items in QUOTE, arranged alphabetically according to subject matter, are regularly assigned an index number. In our semi-annual index, the first numeral in each reference indicates the issue of QUOTE, the second numeral refers to the location of the item within that particular issue, according to its index number. Thus, in the first column of this index, "Action—10-2;" tells you that an item on Action will be found in the tenth issue of QUOTE under number 2.

One or more letters following an issue number, refers to material in regular departments. For example: "Traffic Regulator—23-NI;" indicates that an item on that subject is in **New Ideas!** in issue number 23. The reference to "China—20-BV;" means that an item on that subject appears in **British View Finder** in issue 20. The reference to "Absentmindedness—9-u;" means that an item on that subject will be found in the regular **Good Stories** section of issue 9 under index letter u.

Quotations in the section **May We QUOTE You On That?** are also numbered consecutively. In the index, a reference such as "Democracy—2-6Q;" refers to a quotation on that subject in the second issue numbered six in the **May We QUOTE** . . . section. When the letter t follows the Q as in the reference "Smoking—13-Qt;" it indicates the special **Quote-ette** feature in issue 13. A complete list of department abbreviations appears below:
